

ATTENTION LAMBDA ALPHA ORANGE COUNTY CHAPTER

Lambda Alpha Foundation of Orange County, Inc.

The Orange County chapter of Lambda Alpha has successfully formed its own not-for-profit corporation to focus specifically on Southern California. This gives our chapter a great chance to allocate funds as we feel would better Southern California. Please consider a tax deductible donation before December 31, 2008.

The **mission** of the Lambda Alpha Foundation of Orange County, Inc. (a not-for-profit) shall be to create and administer a research and education investment fund for activities in Southern California and which purposes include:

- (i) encouraging and supporting the study and application of land economics to achieve the highest ideals of scholarship and integrity for all fields, including, but not limited to professional, business, legal, governmental and land economics affairs and academics;
- (ii) expanding the universe of knowledge and understanding of the principles of land economics, which encourage the support and application of these principles to both public policy and private endeavors;
- (iii) providing grants for research projects relating to land economics that are either submitted to and approved or originated by the LAFOC Board of Trustees; and,
- (iv) performing or facilitating other projects and activities that will carry out the purposes described above.

Please bring a check to the December meeting or send in your donation with the voucher below.

Please contact Peter DeGregori at 949-756-8080 x1105 if you have any questions.
